

APPRENTICESHIP INFORMATION

Thank you for your interest in Washington State's apprenticeship programs. Enclosed is a copy of our catalog, a list of trades, and additional information on apprenticeship. Please review the information and the list of trades, choose the trades that you are interested in, and contact the Apprenticeship Section for a set of the program's standards for each trade selected (up to five trades) or go to the internet site to retrieve the standards. The standards will provide you with the rate of pay, the geographical areas covered, the training that you will receive, and other related topics.

Once you receive the standards, please read through them. If any programs interest you, then contact the sponsor(s) to find out if they are taking applications and if they are, follow there procedures for applying.

Additionally, you may go the Internet sites listed below and retrieve the program standards for occupations selected and other information related to apprenticeship.
